

## Jubilee Minor Release (February 7th, 2020)

The Jubilee Minor release has the following features:

- Build/ Versions synchronization across all the 4 instances: PD, FITBIR, cdRNS and NEI
- Submission Tool:
  - Extra Validation Rule: Age Range Revision in King Devick FS
  - Fixed issues with integer/decimal points validation for DRS FS
  - Fixed the validation for scoring errors on VOMS FS
- Fixed Maven dependency resolution issue for the reporting module
- Query Tool: Fixed issue with memory leak
- Fixed the side menu missing issue for MarshallCTScore CDE happening due to line breaks between the PVDs
- Fixed the Data Element download issue where the system was downloading all the Data Elements instead of selected ones
